Diversity at SICE:
Diversity and inclusion are fundamental to Indiana University’s School of Informatics, Computing, and Engineering (SICE). We have a variety of inclusive initiatives to promote success and retention of underrepresented talent. Ultimately, we strive to provide an environment that intentionally includes and affirms a diverse array of stakeholders. We prepare all students to develop cultural awareness and sensitivity throughout the process of their education. SICE strives to be the higher education National Exemplar Model for Diversity in IT.
